

Mattone quadro and grande

Not only walls, facades or room partitions can be realized with the Mattone. It can be gifted with a photo or a dedication, the Mattone is a highlight!

And this is how it works: Make a photocopy, cut to size, Brush the back of the Mattone with craft glue, place the copy with the print side on the glue layer, press on, let dry and the work of art is ready!

By the way, with warm water the picture on the Mattone comes off and you can attach a new desired picture... over and over again...
