

Gift set Frakmont Gin

Discover the ultimate gift for gin lovers and those who want to become one. The Frakmont Gin gift set is the result of the collaboration between four young Swiss entrepreneurs and Glasi Hergiswil. Four friends who share a common passion for gin founded Swiss Drink Experience GmbH in 2018 and began developing their own gin. After intensive research and experimentation, the

Frakmont - Lucerne Dry Gin was finally created. The name of the gin comes from Lucerne's local mountain, formerly known as Mons Fractus. It was colloquially known as Frakmont among the locals, which was ultimately chosen as the name for the gin.

Glasi Hergiswil has been known for its unique glassmaking for over 200 years. With a lot of hard work and skill, our glassmakers conjure up wonderful works of art every day! This also applies to the Diamante gin tumbler. The mouth-blown tumbler guarantees an unforgettable drinking experience. The Gin & Tonic glass is perfect for anyone who wants to enjoy the aromatic character of the botanicals of gin.
