

Christbaumspitz Schneeflocken

The snow is falling ... but it's not cold, because the snowflakes (made out of white pieces of glass) are scattered on top of the Christmas tree. Paired up perfectly, with our Snowflake balls Ø 70 (item 587.3) and Ø 90 mm (item 587.4).

Manufacturing technique:

Freely blown from a glass tube on a burner - so-called "lamp technology" - and decorated with burnt-in, white glass splinters

Care recommendations (print version)

Nr.	Bezeichnung	Masse	Preis
