

Eisvase

They are like ice. Glass is actually a frozen liquid which "freezes" at 550 ° C. These vases prove it: the more natural the glass, accordingly fewer products. They live up to their name!

Production method:

Mouth-blown into the mould and stretched by hand.

Care recommendations (print version)

Nr.	Bezeichnung	Masse	Preis
32084	Ice vase ice bucket	Ø 130 x 270 mm	139.00 CHF
32085	Ice vase ice bucket	Ø 175 x 355 mm	189.00 CHF
