

## Floating flowers

Floating flowers are a perfect decoration idea for summer. You can use an old or new tub that you place on the floor or let the flowers float in large glass bowls. Shorten the handle according to the water depth. Push the flower through the hole in the floating flower and voilà! The flower floats! The summer decoration is perfect together with the float (candle), the swan with feathers and the bubbles. See recommendations below.

Care recommendations (print version)

| Nr.   | Bezeichnung            | Masse   | Preis     |
|-------|------------------------|---------|-----------|
| 855   | Floating flowers       | Ø 65 mm | CHF 18.00 |
| 855.1 | Floating flowers large | Ø 95 mm | CHF 24.00 |
