

Decanter Balloon

Clean decanters, carafes, bottles and vases in a flash. Better than any bottle brush, the cleaning balls also clean vessels that are difficult to access on the interior. In this way, all your favorite pieces will be thoroughly and gently sparkling clean again! Simply put the balls in the container with a little warm water and swivel the container around its own axis for a while - dirt and residues will come loose. Then pour the balls with the water through a sieve, let them dry and then put them back in the glass jar. If properly dried and stored, the cleaning balls can be used many times.

Care recommendations (print version)

Nr.	Bezeichnung	Masse	Preis
12205	Decanter Balloon (inclusive stopper)	Ø 195 x 265 / 330 mm	CHF 125.00
91020	Cleaning balls	ohne Mass	CHF 18.00
