

Decanter Trapeze

Red wine needs to breathe. It does this in a particularly beautiful way in the hand-blown Decanter Trapeze. Its design ensures that the wine gets plenty of air and the aromas develop optimally. The decanter has a volume of 2.1 liters.

Tip: Adding a personal engraving makes the decanting bottle the perfect gift idea! Click on "Design" and off you go...

Decanters should always only be washed by hand and with clear water. In order to be able to clean the decanter in places that are difficult to reach with brushes or similar, use our special stainless steel cleaning balls item 91020.
