

Aperitif bowl Bunny with wooden base

A noble spring and Easter greeting that attracts everyone's attention. The lovingly hand-made bunny looks excitedly at what's inside the glass bowl. Whether colorful sugar eggs, eggs made from the finest chocolate, nuts, olives or pralines, everything finds its place in the glass bowl. And because the aperitif bowl with the little bunny deserves a place in the kitchen even after Easter, simply plant it with cress. Not only is it a visual eye-catcher, cress is simply delicious and a source of vitamin C to boot.
