

Edelweiss butter dish / biscuit platter / jam pot

Bring a piece of Swiss tradition and quality home with the Edelweiss series. From now on you can make the breakfast table a little more stylish. The jam goes into the jam pot, where the lid has a practical recess for the spoon. Serve the butter stylishly on the butter dish and the home-baked cake finds its ideal place on the biscuit platter. The biscuit platter is also ideal as a cheese and/or cake platter.

Care recommendations (print version)
