

Whisky glass Tulip

The mouth-blown Tulip nosing-glass brings out the entire multi-layered variety of aromas of single malt Whisky: The bulbous glass body is perfect for developing the finest scents and flavors, while the relatively narrow rim directs the bouquet specifically to the nose. Anyone who has ever tasted single malt from such a glass will hardly want to use anything else. The Whisky glass Tulip is also ideal for tasting cognac, brandy, rum, aged grappa and old fruit brandies.
