

Sack Bottle

We found the sack bottle in the Glasi's first surviving catalog of goods. For the 200th anniversary, we made a new cast iron mold based on the archived sample, into which each bottle is lovingly blown by mouth and the rim - as in the old days - is blown by hand with a pear wood stick.

Care recommendations (print version)

Nr.	Bezeichnung	Masse	Preis
1817	Sack bottle	105 x 50 x 150 mm	44.00 CHF
