

Room Fragrance Set

The GREEN TEA room fragrance set turns your apartment into a real home. The set consists of a hand-blown, shapely glass, a 100 ml Green Tea fragrance solution and wooden sticks. The fragrance solution gives off a natural, pleasantly fresh fragrance and can be reordered (Art. 91038).

Application: Fill the scented solution into the glass and place the wooden sticks in the scented solution. After a few hours, the fragrance unfolds subtly in the room. With the number of sticks you regulate the intensity of the fragrance. Turn the sticks once a week.

Care recommendations (print version)
