

Pendolino Set of 3

If you think that a Christmas tree needs real candles to give it an individual and traditional look, then the handmade glass Pendolino is the right choice! The Pendolino is simply hung over the branch. The candle holder with the tealight hangs in a vertical position simply because of its counterweight. By using tea lights, no drops of wax can run down and nothing stands in the way of a contemplative Christmas celebration!

Care recommendations (print version)

Nr.	Bezeichnung	Masse	Preis
