

Windlicht Diamante

The hand-blown Windlight Diamante impresses with its stylish, simple shape and unique groove structure. As soon as you light the tea light in it, you will experience a wonderful play of light. Just as beautiful in the living and dining room as it is on the balcony. Alternatively, fill the Windlight with flowers and creatively make a small vase out of it.

Matching with it, we have a Windlight Fiamma Art. 901 or the Windlight Brilliant Art. 903
