

Fish cup

Roberto Niederer has never explained why he baptised these cups "Fish Cups". They have little to do with fish - but they are great for punch or for chocolates and sweets when you have guests.

Production method:

Mouth-blown into the mould. Stem and base freely formed and inflated. Rim also inflated freely and lowered hot into the wave mould.

Care recommendations (print version)

Nr.	Bezeichnung	Masse	Preis
218	Fish cup	Ø 250 x 340 mm	280.00 CHF
